CMV integration into main display- implemented in Redline Roller DRS120D & DRS120DS.

Dear Colleagues,

PC India has implemented the integration of the Compaction Meter Values (CMV) into the main machine display for the Redline Roller DRS120D & DRS120DS. The Digital Compaction Meter or CMV (P/N: 4812316782) can be ordered as an option as per the latest version of PPT2022.5.1.

Earlier

Separate Compaction Meter Display

New solution

Compaction Meter Values Integrated into Main Display

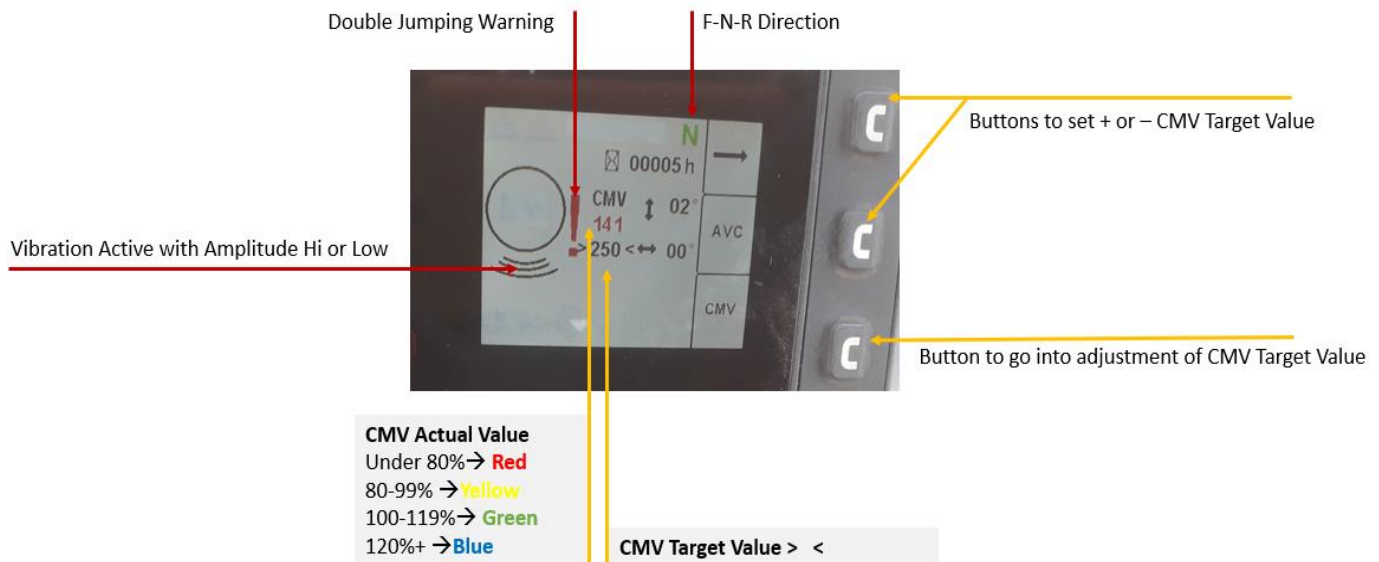

BENEFITS

- Quick and easy to understand the compaction meter reading due to the color display.
- Moving from an add-on solution to an integrated solution makes the unit
 - theft proof
 - robust
 - maintenance cost friendly

WHAT ARE THE CHANGES?

SI No	Parameters	Earlier Design	New Design
1	Display units	Two Displays: Main display and Compaction Meter Value display with additional installation brackets.	One Integrated Display for both Machine & Compaction Meter Values
2	How is CMV displayed?	Digital	Digital
3	Scale adjustment for CMV	✓	✓
4	Status of the achieved CMV	Numerical value with bar graph	Numerical value in color Red, Yellow, Green & Blue
5	Inclination angle - horizontal & vertical - value in deg & %	✓	✓
6	Double-jumping warning	Solid black (!)	Red color (!)
