

# REDLINE

## HIGHWAY PAVER

**DRF25 - 60W WHEELED PAVER**

## The REDLINE paver focuses on simplified smart operation with remarkable paving results.

DRF25-60W have powerful drive which allows paving up to 6.7m.

This powerful paver offers reliable performance and does not compromise on quality even in challenging situations. The simple and smart design of the paver and screed allows the operators to concentrate on the job and to drive your success!

### Technical Data

Basic width	2.55 m
Working width	2.55 m up to 6.7 m
Theoretical placement capacity	650 t
Engine	Cummins QSB 6.7
Engine rated power	129 kW @ 2200 rpm
Available screeds	DRV51TVE / DRV60TVE

## High Performance Screeds

High quality results and easy and fast set up time. The reliable and stiff 4 guiding tube principle ensures unmatched screed stability. The output is high class roads from 2.55 m up to 6.7m.

The ergonomic side shield and remote allow the operator to stay fully focus for high end results.

## Outstanding traction & compact design with great maneuverability

- Ample traction due to smart rear wheel drive
- The low profile tires give superior ground contact and effective traction
- Compact in design with 2.4m inner turning radius
- Easy to transport with 17 degree ramp angle

## Homogeneous material flow

- Wide and long hopper for easy truck docking and high capacity
- Low dumping height for flexible docking for different lorry-sizes
- Independently operating hopper flaps
- Wide conveyor for smooth material flow up to 650 t/h

## Incomparably stable screed

- No supporting rods needed
- Adjustable pilot bushings
- Deep screed plate for great compaction performance
- Efficient screed heating for fast heat up time

## Excellent serviceability

- Easy access to maintenance points and inspection points
- Grouped components for convenient service
- Large fuel tank capacity
- Plug and play components

## Best visibility & overview

- Spacious operator platform
- Slidable operator dashboard
- Easy & convenient position change
- Dual seat concept
- LED lights for night works

## DYN@LINK - DYNAPAC CONNECTS THE FUTURE

Dyn@Link provides customers with a tool to monitor and manage their machine fleet efficiently and conveniently. The intelligent telematics system offers many possibilities to optimize fleet usage reducing maintenance costs, saving time and money.

### FLUIDS & LUBRICANTS

- Right Fluids as confirmed by product design
- Right size of packaging to avoid storage

### EXTENDED WARRANTY

- Extended warranty for peace of mind
- Service agreement to ensure higher uptime

### TAILOR MADE TRAININGS

- Various training modules geared towards our customer requirements

## Reliable Aftermarket Support - Solutions to fit

### MAINTENANCE KITS

- All-in-one box concept for ease of ordering
- Designed to cover full maintenance
- Cost effective as well as easy to plan

### WEAR & REPAIR KITS

- All-in-one box package for ease of ordering
- Right quality at right cost, for minimum cost of operation
- Different options to suit all maintenance
